Experience

Full Stack Web Developer | 2024 - Present

WorldStrides

- Lead the launch of our Custom Programs refresh. Responsible for end-to-end project development, from domain setup to post-launch maintenance.
- Daily WordPress development, implementing design changes, SEO, code, custom blocks, and plugins.
- Updated our analytics tracking process using Google Analytics and SEMrush for insightful reporting.

VR/XR Development Intern | 2023

MXRReality

- Developed a Unity based VR game tailored to wheelchair-accessible users where mobility limitations became a feature, not a barrier.
- Planned features in agile sprints with a focus on C# development, user testing, and accessibility feedback tracking.

Lead Web Developer | 2022

EZsolutions

- Serve as technical lead for the web development team, overseeing client projects from build through launch with Elementor, and post-deployment support.
- Troubleshoot and resolve front-end and CMS issues involving themes, plugins, custom CSS/JavaScript.
